

The book is a compilation of articles in land management and development covering conceptual and practical aspects of land management and development. Since, land management is broad in its very nature, this book is comprising aspects of land management and development including local authority management, social impact assessment, indigenous land supply constraints, land for tourism, idle agriculture land, heritage management, land use management, land acquisition, land taxation and project privatization. The contributors have many specializations which are broad and diverse. The case studies are from Europe, Indonesia and Malaysia. Therefore, a blend of worldwide agenda in land management and development is important and interesting to portray the very nature of land management and development. The book is suitable for students in land economy, land development, estate management, town planning, built environment, land law, land administration, surveying and those who are looking for gaining knowledge in land management and development.

The Little Green Pea, A Beautiful Design - Bible Study Book: Gods Unchanging Plan for Manhood and Womanhood, Blasphemy, Islam and the State: Pluralism and Liberalism in Indonesia (ICLARS Series on Law and Religion), How to Become a Chef: The Essential Guide for Becoming a Chef and Building a Successful Culinary Career, The Art of Taste: Secrets of the Cantonese Kitchen,
