

Without pretending to be thorough on so inexhaustible a subject, in *The Esoterism of Dante* Guenon nonetheless casts an unexpected light onto a specifically esoteric and initiatic aspect of Dantes work, and above all of his *Divine Comedy*. Dante was without doubt far more than a literary genius, and one is justified in thinking that many treasures remain to be discovered in what Guenon calls the spiritual testament of the Middle Ages. The author undertakes to establish that the three divisions of *The Divine Comedy* represent stages of initiatic realization and testify to Dantes knowledge of traditional sciences unknown to the moderns: the science of numbers, of cosmic cycles, and of sacred astrology. He also touches on the all-important question of medieval esoterism, and corrects the errors of earlier scholars who had only glimpsed the deeper meaning of Dantes work-providing an entirely new explanation of numerous points not previously elucidated. Some of the same themes are further developed in *Guenons Insights into Christian Esoterism*.

Straight Up, *The Complete Guide to Managing A Portfolio of Mutual Funds*, *Multitasking multitalking Housewifemum* (German Edition), *Health Law Handbook*, 2013 ed. (Health Law Series), Code of federal regulations,
